

October 11, 2006

To whom it may concern:

This is to inform that I know DIN Electrical Contractor for around 8 years. Din has demonstrated to be an outstanding contractor supporting the several companies I have work with such as: Upjohn, Pharmacia as well as Johnson & Johnson.

His safety record and workmanship has assured a good repeat record for the projects I'm related to.

Actually Din Electrical is performing a Project for us of \$2.8MM not including future change notices or changes.

Best Regards,
